SATYR ARCANA CARDS

THE ARTIST

Green Satyr has been building sound for thirty years — electronic music rooted in leather culture, pagan tradition, and the kind of grief that becomes art. His Satyr Arcana turns that life into a tarot deck you can hear: a 78-card series where every card becomes a track and an original piece of art, released across six albums. Satyr Arcana I arrived Beltane 2026; the journey completes Beltane 2027.
